

## SPACE, SERVICE AND SERENITY - LOVEBUG

In pristine condition and ready to wow charter guests this winter, LOVEBUG is an exceptional ocean-going, luxury motor yacht, packed with amenities.

Built in 2010 at the renowned Sanlorenzo yard in Italy, 37m LOVEBUG is one of just eight SD122 models, boasting a round hull, transom stern and flared bow. Designed by Francesco Paszkowski Design with naval architecture by Sanlorenzo, her full displacement hull and superstructure are fully realized in composite, delivering excellent seakeeping ability. Powered by twin Caterpillar engines, LOVEBUG comfortably cruises at 12 knots, with an impressive maximum speed of 17 knots. Her Zero Speed stabilizers reduce any roll motion and deliver excellent comfort levels both at anchor and when underway. Offering more

gross tonnage than even larger competitors in this market, she offers a range of extraordinary spaces from bow to stern.

Having recently completed a comprehensive refit both inside and out, including all new teak decking, new interior and exterior furniture and a new AV system, LOVEBUG is presented in absolutely immaculate condition and received glowing accolades at her industry debut. Her crisp and subtly contemporary new interior by Lauren Sachs Designs is stunning, featuring warm woods and stylish linens that highlight her open layout. Her relaxed and welcoming atmosphere throughout is further emphasised by the abundance of large windows, allowing plenty of natural light to flood in.

Four spacious decks provide a range of areas

to entertain, socialise and relax as required. A highly popular spot is her vast sundeck offering lounging zones, sun pads, Jacuzzi and bar, while the upper deck aft features a lovely exterior space for dining and relaxing on sofas. The large interior salon with seating and bar is a fabulous place to while away the evening in luxury. On the main deck guests can enjoy the comfortable salon and formal dining area, while aft there is a host of casual seating to soak up the amazing views. In addition, forward in the bow is tabled seating, to make the most of the space available.

Accommodation is in five well-appointed staterooms for up to eleven guests. The superb full beam main deck master suite features a king-size bed, study plus his and hers bathroom. On the lower deck are the four further

staterooms, including a VIP with king-size bed, two forward staterooms with modified queen beds and one twin – all en suite. She certainly offers an excellent and versatile layout for families and groups of friends.

Some impressive features are seamlessly integrated on LOVEBUG, particularly the underwater lights which add true spectacle and style after dark. A great selection of water toys and accessories ensure that plenty of fun is readily available, including a 30' Everglades tender, two SeaDoo Spark waverunners and four paddleboards.

Beyond five-star service is provided by her professional and energetic crew, led by experienced Captain Rob Saunders, who exudes enthusiasm when talking about the yacht. "LOVEBUG stands out for a couple of reasons, firstly the expansive deck spaces for its size range, and high level of care the owner

puts into her – she really delivers the wow factor as soon as you approach the yacht". He continues, "The other highlight is our amazing crew. We've spent a lot of time together and we all have a true passion for exactly what we do. Showing people what we love is what makes this yacht one of the best!".

It is clear the crew are excited to welcome guests on board and make some unforgettable charter memories; something they excel at, "Each person on our team was chosen to complement each other with their given skillset", Captain Rob explains. "Our stewardesses are high energy, superb bar tenders and have an extraordinary eye for making things feel high class and comfortable. The deck team consists of water sports enthusiasts and dive instructors". A perfect combination for sure.

Experience has shown Captain Rob that being

able to spend some relaxed time at anchor, away from other yachts, charter guests always enjoy seeing things that are not run of the mill, "we've set ourselves up for some interesting shore-to anchoring situations" he claims candidly, not willing to give away any hidden charter spots he's discovered. "This year big goals for us are to expand on what we know. We like exploring more remote areas and to push to the next. Bermuda in the Spring and the Bay of Fundy in Nova Scotia this summer could be on the cards."

An outstanding option in this size range, with proven charter success, LOVEBUG is ready to make a splash in the Caribbean and Bahamas this winter.
