 €672,241 Euros \$950,357 CAD

Description

"Olga", a 2008 58' Princess, has a lot going for her - but being in exceptional condition is right at the top of that list. She has a three stateroom, two head layout; powerful C-15 engines; and an elegant cherry wood interior. The Princess 58 model has long been heralded for its looks and performance - notably a 26 knots cruise speed - but what sets "Olga" apart is her recent, across-the-board updates & upgrades.

The yacht's exterior teak was just replaced, as were her wall coverings and headliner, main salon A/C, batteries, and galley refrigerator. Other updates & upgrades include a custom-made exhaust, bimini top, and cockpit full enclosure. And that's just a sampling. "Olga" is looking & running like she is primed to be sold quickly, which, in fact, she is. So come by and see her in Delray Beach any day of the week.

Data Sheet

Category: Motor Yachts
Type: Power - Used
Year: 2008
Beam: 16' 1"
LOA: 58' 0" (17.68 meters)
Draft Max: 4' 2"
Cabins: 3
Heads: 2

Maximum Speed: 30
Cruise Speed: 26
Fuel Type: Diesel
Hull Material: Fiberglass

Fuel Tank: 750 Gallons (2839.06 Liters)
HIN/IMO: VSC58038A808

- Fresh water line to generator replaced (11/15/2021)
- Valve and injector heights adjusted (11/15/2021)
- 2 new white underwater lights replaced (11/15/2021)
- New 5G WaveWifi (12/10/2021)
- New generator battery (1/2022)

Vessel Walkthrough:

Upon boarding Olga, it will be immediately obvious the owner's attention to detail. From the brand-new teak swim platform, to the brand-new teak cockpit, you will continue to be amazed by her condition. From the brand-new wall coverings to the updated cushions and recent haul out and engine services, it is obvious the owner is quite meticulous.

Entry to the Olga's elegant interior is gained through the double sliding glass doors accentuating the spaciousness of the salon featuring a U-shaped sofa to starboard and large L-shaped sofa to port. The salon is seamlessly joined to the starboard side bar area that includes an icemaker, refrigerator, and storage for wine glasses and bottles.

Forward and to port is the raised dinette that comfortably seats six and provides panoramic views, keeping your guests involved in the experience. The lower helm station is to starboard and provides excellent visibility even on a full plane. The comfortable, modern layout includes matching bucket seats and a state of the art console with a full array of electronics. Walking Forwards, down the stairs you will find a unique lower galley design that is open and airy, thanks to the panoramic windows above. Granite countertops, solid teak flooring, and stainless handrails are impressive as you move aft downstairs to the exquisite full-beam master stateroom, a rare feature for a yacht this size.

Light pours into the Master suite, with three large port lights on both the port and starboard sides. To port, is a vanity with ample storage. The master berth is a spacious centerline queen, with room for either person to get up on their own side of the bed. The master head has teak flooring, a walk-in shower, and plenty of natural lighting.

Progressing forward, you will find the VIP stateroom with an additional centerline queen berth, full-size hanging, cedar-lined lockers, and private access to the guest head. To starboard you will find the guest stateroom which boasts twin berths, ample storage, and a private entertainment system.

Access to the flybridge is gained via spacious teak steps located on the aft deck. Seating and entertainment options are plentiful and 360 degree views are enjoyed from any location on the flybridge. A large U-shaped lounge with dinette table is to starboard. You and your guests are never far from the built-in refrigerator and wet bar that includes an electric grill, sink, and ample storage. A smaller settee is to port, and aft is a raised sun pad with concealed storage. The centerline helm has seating for two and provides excellent visibility in any situation. Clearly this yacht has been designed, built, and equipped to the highest standards and quality inside and out.

Additional Details:

Salon and Dinette:

- CAT engine controls, electronic with synchronizers
- Loud hailer and intercom to bridge
- Rudder angle indicator
- VHF Radio
- Windshield wipers variable speed with washers (3) and defogger
- Windshield cover

Cockpit:

- Glendinning cablemasters (2)
- Voltage stabilizer transformers (2)
- Manual "dry bilge" pump
- Transom davit concealed in locker (770 lb. capacity)
- 8" stainless cleats (4)
- Cockpit cover
- Fender storage
- Waterproof stereo remote with LCD Display
- Cockpit stereo speakers with amplifier
- 10" Kicker Marine subwoofers (2)
- 6 1/2 Component Kicker Marine speakers (2)
- Freshwater Shower, hot/cold

Deck:

- Teak lower helm flooring
- Foredeck freshwater washdown
- 316 stainless steel bow chocks
- 316 stainless steel bow, stern & spring cleats
- 316 stainless steel rails
- Heavy duty PVC rub rail with 316 stainless steel insert
- Molded spray rails
- Fenders
- Flagstaff
- Spotlight screens
- Boarding ladder on transom

Flybridge:

- Seating for (10) comfortably on bridge
- Anchor windlass remote control
- Furuno autopilot control with read out
- Bow thruster control
- CAT engine controls, electronic with synchronizers
- Refrigerated cold box
- Rudder angle indicator
- Searchlight control
- Wet bar, sink and electric grill
- Raised sunpad on aft flybridge with cushion storage

Mechanical and Electrical:

- Air Conditioning zoned with reverse cycle (63,000 BTU)
- Bowthruster with dual station controls
- Contaminated fuel warning system
- Dripless shaft and rudder seals
- Exhaust silencers for engines and generator
- Fire protection system, automatic and manual
- Fuel filters, high-capacity duplex with water trap and change over valve
- High volume air intakes
- Holding tank, 60 gallons with dockside and overboard pump-out gauge
- Holding tank, backup overboard discharge
- Oil change system for engines and generator
- Power assisted hydraulic steering
- Propellers, 5 bladed in nickel aluminum bronze
- Anchor windlass
- Battery chargers, (2) 1-75 and 1-45 – total 120
- Bonding system
- Central vacuum system
- Generator, 17.5kW/60Hz with soundshield
- Generator gauge package
- Searchlight – twin beam, dual control
