CHECKED

NOTE: Drawing shows all combinations for 120V boat.

-For 100amp alternator option add isolator and cables. Also disconnect 16ga YELLOW/RED from solenoid, be sure to tape end of wire and secure.

-For inverter option, do not install battery charger wires. Be sure to connect echo charger wire #23 to echo charger output on the side of the inverter.

All other connections are standard, except for the electric halyard and windlass.

CHECKED

NOTE: ISOLATOR LOCATED UNDER NAV STATION STEP

2GA RED for 100 amp alt. option only

NOTE: Drawing shows all combinations for 230V boat.

- For 100amp alternator option add Isolator and cables. Also disconnect 16ga YELLOW/RED from solenoid, be sure to tape end of wire and secure.
- For inverter option, do not install battery charger wires. Add Isolator and cables.
- Isolator connections are the same for both the inverter and 100amp alternator options, except for the alternator output cable.

All other connections are standard, except for the electric halyard and windlass.
