JEANNEAU
POWERBOATS

1957

In the small town of Les Herbiers, France, Henri Jeanneau built his first wooden hull with which he placed first in the 6 hour Paris Race.

1963

Sea Bird, the first production-line powerboat was built.

1980

The Cap Camarat Line (known as Leader Line in North America) was born.

1981

Jeanneau won the first three places in the Nyamey-Bamako Rally, a test of endurance covering over 1,242 miles.

HISTORY OF JEANNEAU

1996

Jeanneau America is established in Annapolis, Maryland.

2016

Jeanneau Outboards are introduced to the North American market.

2017

The NC 895 begins production in Cadillac, Michigan.

2021

Jeanneau America moves headquarters to Fort Lauderdale, Florida

TODAY

Jeanneau Outboards are built in Cadillac, Michigan and Ostroda, Poland with over 200 dealerships worldwide in 80 countries.

JEANNEAU MISSION

To allow everyone to discover the pleasures of the sea, and to experience in complete serenity those singular moments spent on the water. No other builder can offer the same level of cutting-edge design, superior finish, performance and customer satisfaction, all in a competitively priced package.

CRAFTSMANSHIP

At Jeanneau, skilled craftsmen and professionals have always been essential to boat construction. They transmit their experience and their passion for work well done. A reference among boatbuilders, Jeanneau is distinguished by the elegance of its boats. Their pure, modern lines are drawn by internationally renowned naval architects, who bring innovative ideas to each new project.

A LARGE INDUSTRIAL FOOTPRINT WITH QUALITY PRODUCTS

Jeanneau owns the largest production site for cruising boats in Europe, stretching to 100 acres. Our formula for success: Combines more than 60 years of practical boat building savoir-faire with the latest construction technologies. Invest in and continuously improve technologically advanced factories with ergonomic production lines, computerized processes and efficient logistic supply chains. Translate the efficiencies into lower costs and higher quality for the customer.

BECOME PART OF THE JEANNEAU FAMILY!

When you purchase a Jeanneau you become part of our family. At Jeanneau, we know that delivering excellent boats is only the beginning: excellent customer service must follow. Feel at ease when you purchase your Jeanneau in North America! You have the full support of Jeanneau America's customer service team.

THE JEANNEAU SPIRIT

Over 60 years of solid construction "savoir-faire".

Excellence in innovative technology.

Up to 7-year warranty.

ISO 14001 and 9001 Certified Boats.

Over 220 Outboard distributors worldwide.

Commitment to sustainable development.

AVAILABLE**

*Weight will vary depending on engine option
**Weight is the standard boat without options

1. EXCELLENT PERFORMANCE Powered by triple outboard engines, 3 x 300 HP, the NC 1295 Fly planes early, even at moderate speeds, to ensure fuel efficiency and maximum comfort on board.

2. FLYBRIDGE CRUISING A stainless-steel ladder with teak treads on the starboard side of the aft deck leads to the flybridge through a closeable hatch. Immediately ahead is the well-equipped helm console, positioned for ease of docking alongside to starboard. The flybridge comes standard with refrigerator and optional galley. Guests can take in the sun on a large pad forward, or relax in a U-shaped lounge with table aft and to port. Cool off with a beverage from the flybridge refrigerator. Galley is optional.

3. LOUNGE FOR DAYS A wide side deck leads to the forward cockpit with well-positioned hand-holds and tall hand rails. The foredeck features a trio of sun lounges, plus a bench seat ahead, bringing to three the number of on-deck areas for recreation or personal getaway.

7

4. ROOMY AFT COCKPIT Boarding takes place at the starboard transom platform and gate or through the portside opening gate. A large L-shaped lounge with table is located to port while an electrically controlled starboard terrace can be deployed, providing even more entertaining space in the cockpit.

5. BRIGHT & OPEN SALON The interior galley is completely open to the aft cockpit, connecting your living space on board. A large U-shaped raised lounge with table is just forward of the galley, opposite the helm. Abundant light and natural ventilation from the surrounding windows makes the interior a very desirable place to hang out, have meals, or simply keep the helmsman company.

6

6. DOCKING MADE EASY A large starboard-side door next to the pilot seat makes it easy to access the side deck when docking shorthanded. The helm station is equipped with dual GPS screens, joystick and autopilot technology.

7. OVERNIGHTS ONBOARD Centerline stairs lead from the salon to the accommodations level, which has two private guest staterooms and a shared portside head compartment on the landing level. The master stateroom is forward, complete with large island berth and en suite head with a separate enclosed shower.

PRESERVING MARINE BIODIVERSITY

The marine ecosystem is among the most fragile on our planet, and it must be protected. We are responsible actors in this vital challenge, as our ISO 14001 environmental standards certification attests.

In our fiberglass production, we have chosen to use an injection molding process that traps solvents and avoids the emission of VOCs into the air. In our laminating process, we now use a clean technology with a very low level of solvents (4% versus the former 60%) and curing by UV lamps. Finally, each new production model boat benefits from equipment to aid in protecting nature at sea and at port.

As an ISO 9001 company, the Jeanneau's building process is certified to the highest international standards. Each new sailboat is thoroughly tested throughout the building process and each receives additional tank testing where all systems are put through their paces.

OUR COMMITMENT

GARMIN®

World leader in marine electronics, Garmin designs products that fuel your passions. Suitable for life outdoors, they are designed so that you can fully enjoy your time spent on the water. You love getting out on the water. Not a day goes by without you thinking of it. The smells, the sounds, the feeling of being elsewhere. Nothing satisfies you more. At Garmin, we design products that are easy to understand, simple to use, intuitive, and dependable from season to season so boaters can get out on the water with confidence.

The association between Jeanneau and Garmin offers you a complete range of electronics on board. Even when you're not on the water, you can stay connected to your boat with the ActiveCaptain® app.
