COLLECTION

# WELCOME TO THE WORLD OF ZODIAC®

---

## TAKE A BREAK FROM EVERYDAY LIFE...

Far from the obligations of modern living, recapture the harmony of being close to nature. Set your horizon on the magical ever-changing world of the sea. The perfect companion for such moments of pleasure is a Zodiac® boat, the easiest, the surest and the most economical way of discovering the pleasures of boating.

If you are a fan of scuba diving, a water skiing enthusiast, a fisherman or just an advocate of relaxation, Zodiac offers a large choice of models adapted to your needs. From the smallest to the biggest, you will always find the Zodiac® of your dreams.

# VATION

## Research and development

With more than a million boats sold throughout the world, Zodiac is the world's largest manufacturer of inflatable boats. Constantly undertaking ambitious programs of research and development, Zodiac endows its boats with a strategy of systematic innovation backed by constant technological breakthroughs.

Zodiac originated most of the major concepts that have led the development of the inflatable (inflatable keel, Futura hull, H<sub>2</sub>P air-

floor) and has launched the new concept of the Acti-V hull which equips the Cadet Fastroller range.

All Zodiac products comply with international standards and the toughest quality requirements.

### Superior Design and technology rewarded

**2005:** Innovation Award for the Cadet range presented by the NMMA\* at the Miami Exhibition (inflatables, small boats and tenders category).

**2003:** Innovation Award for the "Acti-V" hull concept on the Cadet FR awarded by the NMMA\*.

**2003:** Excellence in Customer Satisfaction award, providing annual recognition to marine companies that measure customer satisfaction.

**2002:** Innovation Award for the Medline III awarded by the NMMA\*.

\* National Marine Manufacturers Association

Quick and easy to launch.

Your enjoyment can start immediately!

Zodiac RIBs are made of an inflatable buoyancy tube and a rigid hull. They combine the security, stability, light weight and ease of use of traditional inflatables with the speed and comfort of a rigid boat. True "go anywhere" boats, they provide exceptional marine qualities combining a low centre of gravity to a deep V hull and a stabilizing buoyancy tube.

Practical, their light weight allows for easy launching with the family car. No docking charges, a RIB boat is as practical as it is economical. The perfect multi-purpose boats, they will prove unequalled as tenders with their inflatable tube that will cushion and protect your main boat. And you can be sure that the RIB tenders' light weight will make for easy davit hanging.

Zodiac manufactures and supplies the removable buoyancy tube, a highly practical concept, as it can be removed and folded up very easily, making it easy to maintain, transport and store.

The RIBs will give you the best of both worlds. **Now you can make your choice.**

The Pro range is the best seller of the Zodiac brand and was created to meet the needs of the most demanding users. This comprehensive line of boats, with sizes ranging from 4.20 m to 8.50 m, can carry from 7 to 20 passengers. Its success has always been based on a unique concept: an à la carte choice of accessories for installation on a fully modular

flat deck, so that you can change the layout of your boat according to your needs and desires. Whatever your budget, you can always count on the Pros. You are free to change the layout of your boat as you please. Packages are also available with recommended consoles and seats for optimum pleasure and use.

- Moulded non-skid deck
- Removable buoyancy tube
- Free choice of layouts

Removable tube system  
Exclusive to Zodiac

Pro 15 Man ▼

RIBs

**PRO***The most modular RIB***Space and practicality**

From the polyester anchor fairlead, for easier anchoring, to the optimal length and width of the hull providing greater living space, everything has been designed to make life easier for you. The high-capacity fore locker frees up the deck of all items that could hinder navigation.

**Safety in all situations**

The non-skid deck, the underdeck cabling passage (except for Pro 7 Man & 9 Man) and the large hollow interior make moving around on board easier. The Pro line is also introducing a new generation of higher plating making it possible to transport pointed objects (harpoons, hooks) with no risk of damaging the buoyancy tube.

**Maintenance without constraints**

The line's buoyancy tubes are removable: they can thus be stored away and transported easily. They also facilitate the boat's maintenance and cleaning.

**Rich, versatile equipment**

Along with their large load capacity, the Pros are adapted to all uses. From the Pro 7 Man, with its fore locker, to the Pro 20 Man, with its self-draining deck, its built-in fuel tank, its many lockers, its aft trough, etc., each boat has equipment corresponding to its size.

- 1 - Fuel tank built in under the deck (except Pro 7 and Pro 9 Man)
- 2 - Folding bathing ladder (optional)
- 3 - New generation higher topsides
- 4 - Removable storage box (except Pro 7 Man and Pro 9 Man)

The "platform deck" lets you chose and fit your boat according to your program and your preferences. Diving, line fishing, underwater fishing, work or pleasure boating: your Pro adapts!

for very specific purposes (carrying heavy loads, etc.). The capacity plate shows the maximum allowed power. In no case shall the boat be fitted with an engine that exceeds this power.

(5) Maximum speeds are given only as a general guide to understanding boat performance. They have been established by experienced professional pilots in ideal navigating conditions with one person aboard. Boat speed will be affected by the make of the motor, boat load, propeller and the water and weather conditions.

(6) Medline II: 11 passengers (category C), 5 passengers (category B).

Medline III: 15 passengers (category C), 8 passengers (category B).

Pro Open 650: 13 passengers (category C), 5 passengers (category B).

Pro Open 850: 15 passengers (category C), 8 passengers (category B).

Pro 15 Man: 15 passengers (category C), 5 passengers (category B).

Pro 20 Man: 20 passengers (category C), 10 passengers (category B).

(7) Long shaft for twin engine installation.

(8) 2 x 150 hp / 113 kW for twin engine installation.

(9) 2 x 225 kg / 496 lbs for twin engine installation.

(10) 2 x 80 hp / 59 kW for twin engine installation.

(11) 2 x 175 kg / 385 lbs for twin engine installation.

(12) 2 x 225 hp / 168 kW for twin engine installation.

(13) 2 x 272 kg / 600 lbs for twin engine installation.

(14) Shaft XL for twin engine installation.

(15) 104 hp/76.5 kW for the United States
