Description

2015 Sea Ray 510 Sundancer

A very clean 2015 Sea Ray 510 Sundancer with the layout, profile, and upper-deck setup Sea Ray fans want on this model. No flybridge. No extra bulk up top with clean express line, the sought-after glass doors, an enclosed helm deck, and a powered sunroof that make the boat feel current the minute you step aboard.

This is the standard two-cabin, two-head layout, which in my view is the right one. Forward island berth, large aft master, good separation between cabins, and a lower salon and galley that feels open instead of buried. Up top is where this boat really earns its keep, with a protected social space that works far better on the West Coast than an open express cockpit that only works on perfect days.

Originally a Fort Lauderdale boat, with one owner prior to current ownership, Plan B has since seen the right kind of attention. The service and upgrade story here is real. Professionally serviced and with meaningful work around the shore power and ISO boost system, Zeus service, Cummins and generator servicing, fuel-system, windlass relay replacement, anodes, and additional electrical and mechanical sorting.

Upgrades include new seating, exterior window covers, inverter and lithium battery upgrades including dual main lithium batteries, Starlink, and refreshed black accents up top. Equipment highlights include Cummins diesel power with joystick control, Onan 11.5 kW generator, Raymarine electronics, SkyHook, hydraulic powered swim platform, teak cockpit, cockpit refrigeration, Kenyon grill, washer/dryer, and reverse-cycle heat and air.

Bottom line, this is a very well presented 510 Sundancer with the right look, the right layout, and the right kind of ongoing care behind it. She is not a stripped boat and she is not a tired one. For anyone looking for a 50-foot express cruiser that still feels current and has been kept the way you'd hope, Plan B is worth a close look.

Manufacturer details

There comes a peace at the very center of everything, when the world pivots around you in perfect balance. Some people spend a lifetime trying to find this spot. Others simply settle into the solarium-like covered cockpit of the 510 Sundancer. Light streams in through endless acres of glass above and to every side and even follows you when you head below under SkyFlow's glass cathedral ceiling over the galley and salon. Dissolving the separation between indoor and outdoor helped the 510 Sundancer win the AIM Marine Group Editor's Choice Award. Its technical prowess and inspired execution ensured the win, and the peace you will find therein.
