An Interior Design That's A First For Any Beneteau.

Stepping below on the Beneteau 393, you'll immediately notice that this isn't your standard layout. It's an imaginative new design that incorporates both freedom of movement and practical amenities. Increased light and an efficient configuration provide for an overall sense of expanse. And, true to Beneteau's tradition of innovation, the interior woodwork features a new arrangement of starboard cabinets and drawers offering more salon storage than anything seen before in her size.

The attention to the smallest detail and responsiveness to our owners' needs are what have made Beneteau the world's leading manufacturer of production sailboats. And, it's what makes this bluewater passagemaker such an exciting addition to the new class of Beneteau cruising yachts.
